MOHAMED HASAN M

Avadi, Chennai • +91 7339250739 • mohamedhasan8403@gmail.com

CAREER OBJECTIVE

I am a Java Full Stack Developer with experience in building scalable web applications using technologies like Java, Spring Boot, React, and REST APIs. I have strong skills in both front-end and back-end development, along with database management. I'm passionate about writing clean, efficient code and delivering high-performance, user-friendly solutions.

PROJECTS

Responsive Music Website   GITHUB REPO

- Technologies: HTML,CSS
- This project is a front-end implementation of a music website. It's designed to be fully responsive, providing an optimal viewing experience across a wide range of devices, from desktops to mobile phones.

Responsive Pizza Shop   GITHUB REPO

- Technolgies: HTML,CSS, JavaScript
- This project is a modern and fully responsive website for a pizza shop, built with HTML, CSS, and JavaScript. It provides a seamless user experience for customers to browse the menu, customize their orders, and complete their purchases online. The design is clean, intuitive, and optimized for all devices.
